OUR STORY

The kitchen makeover specialists who put *quality first*

With more than 25 years of experience, Jaxon Rose Makeovers is built on a simple belief that most people don't need a completely new kitchen, they simply want the one they already have to look and feel like new, without the cost and disruption of starting from scratch.

Founder Ian has spent his entire working life working in the kitchen industry, designing, supplying, and fitting kitchens for homeowners.

He has built a business based on quality workmanship, honest advice, and treating customers with the care and respect they deserve.

The name Jaxon Rose was inspired by Ian's son, Jaxon, and reflects the family values that sit at the heart of the business.

WHAT IS A MAKEOVER?

A new kitchen, without the rebuild

A kitchen makeover is one of the best kept secrets in home renovation. By replacing the doors, worktops, panels, and accessories while leaving your existing cabinets exactly where they are, we create the appearance of a completely new kitchen. Typically at half the cost and in half the time.

The transformation covers everything you see. New cabinet doors in your chosen style and finish. New worktops, panels, sinks, taps and appliances. The result looks and feels every bit as impressive as a brand new kitchen.

What *surprises* our customers the most

The transformation

Far more striking than most people expect before they see it

The saving

Typically around 50% cheaper compared to a full new kitchen

The speed

Most makeovers are completed in just 2-3 days, compared to 4-6 weeks for a full renovation

The finished result

A finish that looks and feels like a full renovation

THE VALUE

The smarter choice

A Jaxon Rose Makeover delivers the same visual transformation as a full renovation, for a fraction of the investment.

Leading kitchen retailers

£25,000+

4-6 weeks disruption

Premium finish throughout

You choose exactly what
gets replaced

"I would endorse Jaxon Rose very highly. I've had a kitchen refurbishment (replacement sink, taps, cooking appliances, quartz top, tiling and lots of little extras) and the job was done with fineness, together with excellent communication throughout and some great idea sharing!"

and Cashmere

TRANSFORMATION

A complete change of *character*

This home had a practical grey kitchen that had served the family well for years. But the grey tones felt dull and dark, leaving the room feeling more functional than welcoming.

Rather than the disruption and cost of a full renovation, the family chose a Jaxon Rose Makeover. New pink shaker doors, handles, a modern quartz Carrara worktop and oven transformed the space into a warm, light filled kitchen the whole family can gather around.

What changed

- Pink shaker doors
- Updated handles
- Bright quartz worktop
- Modern oven

The *surface* makes the kitchen

Your worktop is one of the most noticed surfaces in your kitchen. Getting it right transforms the entire feel of the space – and with Jaxon Rose Makeovers, you have more options than you might expect.

Quartz worktops

Heat resistant, highly stain resistant and incredibly durable thanks to its non-porous surface. Available in a wide range of colours and finishes, quartz is a long lasting investment that transforms your space instantly.

Quartz overlays

A precision cut quartz surface fitted directly over your existing worktop. The same premium finish with significantly less disruption, completed in as little as a day.

Laminate worktops

Available in hundreds of finishes including realistic stone, wood, and marble effects. An affordable and practical route to a fresh new kitchen surface without compromising on style.

Compact laminate

Solid material throughout, making it exceptionally tough, moisture resistant, and long lasting. The premium choice for busy family kitchens that need to look great and work hard.

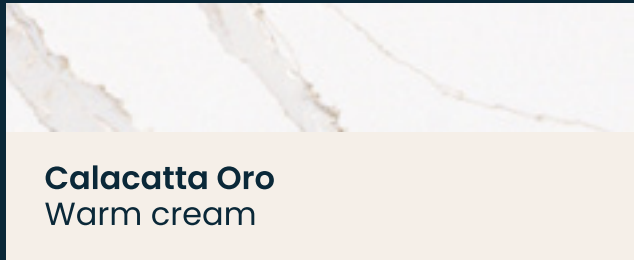

Misterio quartz overlay

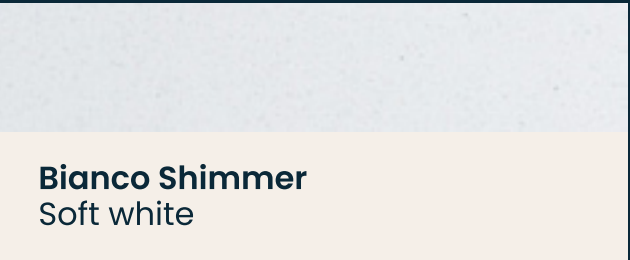

Why a quartz overlay might be the *smartest choice*

If your worktops are structurally sound but tired, a quartz overlay fits directly over the top with no removal or mess. The same premium look with significantly less disruption and fitted in just one day.

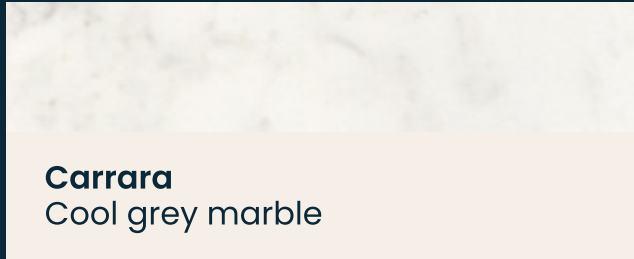

Available finishes

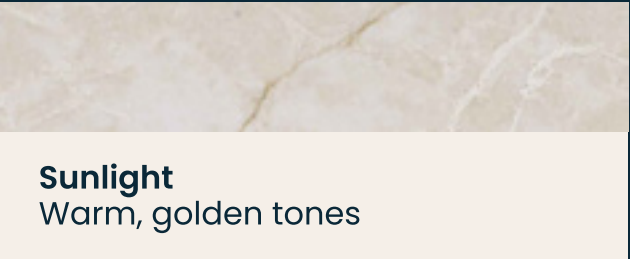

Calacatta Oro
Warm cream

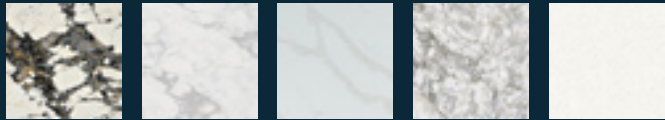

Bianco Shimmer
Soft white

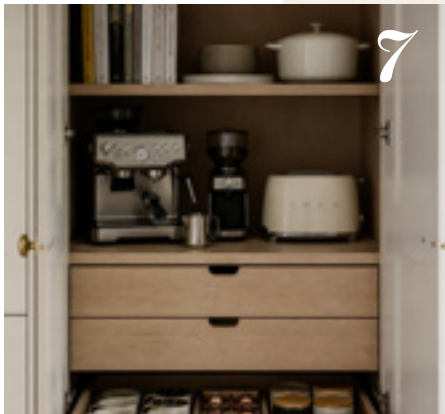

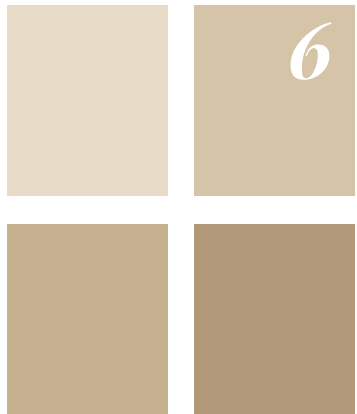

Carrara
Cool grey marble

and *quietly luxurious*

Seven trends worth knowing

Seven key trends defining the kitchens people are falling in love with this year. All achievable through Jaxon Rose Makeovers.

01 Sage and pistachio greens

Calm, sophisticated and surprisingly easy to live with. Works beautifully with brass hardware and a pale quartz worktop.

02 Statement worktops

Dramatic veined quartz and bold stone effects. The worktop as a design statement rather than a background detail.

03 Natural wood textures

Oak, walnut, and ash tones are everywhere. Warm and tactile alongside both light and dark cabinetry.

04 Dark feature accents

Deep colours as a contrast island or larder unit. Drama without committing an entire kitchen to a dark palette.

05 Handleless and slim profiles

Clean, uninterrupted lines that suit both modern and transitional kitchens. J-pull and recessed rail options available.

06 Warm neutral tones

Biscuit, greige and linen replacing cold grey. These tones work beautifully with natural wood and brass hardware.

07 Pantries and storage

The tall, calm, beautifully organised pantry has become the most coveted feature in kitchen design. Floor to ceiling cabinetry that earns its place.

TRANSFORMATION

From traditional to *timeless*

The oak doors and original worktop were functional, but the space had begun to feel dated.

The family had been quoted £12,000 and three weeks of disruption for a full new kitchen. Instead, they chose a Jaxon Rose Makeover. New navy shaker doors, a white quartz worktop and a bright splashback were fitted throughout, along with a new sink, oven and hob. All for £7,000 and completed in just three days.

What changed

- Modern navy doors
- Quartz worktop
- Bright splashback
- Oven, sink, and hob

BEDROOM SOLUTIONS

Made to measure, *made for you*

The same attention that goes into every Jaxon Rose Makeover carries through to our bedroom range. Bespoke fitted wardrobes, dressing rooms, and storage solutions. All solutions are designed around your space, your style, and the way you live.

HOW IT WORKS

From idea to installation

From your first idea to the finished installation, we'll keep you informed every step of the way.

- 1

Showroom visit

See and touch the full range at one of our showrooms. Share your ideas, ask questions, and get expert advice.
- 2

Free home consultation

We visit your home to take a look at your space, provide a full quotation, and advise on the best options for your needs and budget.
- 3

Home survey

We return to measure up precisely and finalise all your choices so everything can be ordered and production can begin.
- 4

Made to measure

Everything is made to measure to or specially selected to fit your space.
- 5

Installation

Most projects installed within a few days, with minimal disruption.
- 6

Aftercare

Our team remains on-hand, with guarantees for peace of mind.
